DEAFNESS CAN BE CURED.

COOPER'S ETHEREAL OIL—A prompt and lasting remedy for DEAFNESS also for pains and discharge of matter from the Ears

Hundreds of cures in cases deemed utterly hopeless have firmly established its superiority over every former Medical discovery.

This valuable Acoustic Medicine is a compound of four different Oils, one of which, the active and principal ingredient, is obtained from the bark of a certain species of Walnut, a new and effectual agent in the cure of deafness!

Persons who had been deaf for 10, 15 and even 20 years have been permanently cured by using this oil In fact, so numerous and so emphatic have been the testimonials in its favor, that the inventor claims for it the distinction of an infallible Remedy, in all cases, where the Ear is perfect in its formation.

FOREIGN PERIODICALS,

REPUBLICATIONS OF

The London Quarterly Review
The Edinburgh Review,
The Foreign Quarterly Review,
The Westminster Review,

AND

Blackwood's Edinburgh Magazine

THE above Periodicals are reprinted in New-York, immediately on their arrival by the British steamers, in a beautiful clear type, on fine white paper, and are faithful copies of the originals —BLACKWOOD'S MAGAZINE being an exact fac-simile of the Edinburgh edition.

The wide-spread fame of these splendid Periodicals renders it needless to say much in their praise As literary organs, they stand far in advance of any works of a similar stamp now published, while the political complexion of each is marked by a dignity, candor and forbearance not often found in works of a party character

They embrace the views of the three great parties in England—Whig, Tory, and Radical—Blackwood and the "London Quarterly" are Tory, the "Edinburgh Review" Whig and the "Westminster," Radical The Foreign Quarterly" is purely literary, being devoted principally to criticisms on foreign Continental Works

The prices of the RE PRINTS are less than one third of those of the foreign copies, and while they are equally well got up, they afford all that advantage to the American over the English reader

TERMS

PAYMENT TO BE MADE IN ADVANCE

For any one of the four Reviews,	$3,00	per annum
For any two, do	5,00	"
For any three, do	7,00	"

CLUBBING

Four copies of any or all of the above works will be sent to one address on payment of the regular subscription for three—the fourth copy being gratis

☞ Remittances and communications must be made in all cases without expense to the publishers The former may always be done through a Postmaster by handing him the amount to be remitted taking his receipt and forwarding the receipt by mail, post paid, or the money may be enclosed in a letter *post paid* directed to the publishers

N B—The *Postage* on all these Periodicals is reduced by the late Post Office law, to about *one third the former rates*, making a very important saving in the expense to mail subscribers

Prof. Cleaveland's Certificate.

THE following very high recommendation which is given by PROF CLEAVELAND to *Kelly & Co's—Extract of Sarsaparilla*, must certainly be taken for truth by the citizens of Bangor, and victuity, as it is an authority and sanction for the Medicine, which not one of the *Nostrum* makers of the day would have the impudence to solicit.

The Sugar-Coated Pills.

A NEW SARSAPARILLA PREPARATION.

To cure Diseases, Purify the Blood! To avoid them, keep it pure!!

THAT PREDISPOSITION which exposes the human frame to the infection and virulence of every class of disorders, proceeds directly or indirectly from a morbid state of the system caused by

IMPURE BLOOD.

HALSEY'S SUGAR COATED MAGIC LIFE PILLS The originator of the only true and genuine Sugar coated Pill most respectfully informs the enlightened public, that this new and elegant preparation can be obtained only from advertised agents and at the proprietor's establishment No 323 Broadway, N York —Price 25 cents a single box, 5 boxes for one dollar

G W LADD, Agent for Bangor

Among the numerous remedies which stand reputable on the basis of an ancient name are none perhaps which have acquired so great celebrity, and extensive use in so short a time as this invaluable article —They have gained their high reputation, alone by their good works Those who once try them, always use them again They are grateful to the stomach,—they improve the functions of secretion, nutrition and circulation They restore digestion and appetite and create a natural warmth inwardly, which glows through the, whole system, giving it greater vitality and animation The experience of thousands attest to their good effects After using them for a short time the hitherto wretched invalid finds that all disagreeable and unhealthy humors have forsaken his system His digestive organs perform their proper functions, his blood regains its wonted purity the oppressive sense of weakness and pain departs, and he body becomes endowed with renewed strength and vigor —while the mind resumes its original veracity and clearness Such are the results produced by Halsey's Sugar coated Pills the mildest yet most effectual preparation of the class in use

In BILIOUS complaints, Costiveness, Indigestion, Dyspepsy, and all other disorders of the stomach they produce the most happy results For Sores, Boils Saltrheum, Tetter Erysipelas, Eruptions of the Skin, Scrofulous complaints and many other like diseases arising from IMPURE BLOOD they have become highly celebrated Hundreds of certificates have been received from individuals who after having taken them for a few weeks, (according to the directions which accompany the box) were cured of the most afflicting cases of *scrofulous affections* They give *Good Blood for Bad* Bottles of the boasted Sarsaparillas contain less of the true virtues of that valuable plant, and are less effectual, than a single box of these extraordinary Pills In Colds Coughs Influenza, Sore Throat Headache, Giddiness &c, they are recommended with entire confidence the relief in these cases is quick and permanent. For Fever and Ague, Fevers, Asthma, Piles, Loss of Appetite, Dropsy, Jaundice Worms, Looseness, General Debility, and many of the various other diseases to which the human system is liable they have proved an infallible remedy Their action on the bowels is of the mildest character, even *one dose* never cause griping or unpleasantness, yet they are searching and effectual It is impossible by words, to give an adequate idea of the great and good effects these pills produce and their superiority over every other remedy of a similar class, a trial only will explain the wide difference The unhappy invalid after having *tested* but a *single box* of them will with joy for the unexampled change wrought in his health, bear testimony to their uncommon virtues

N B The *coating of sugar* adds nothing to the great virtues of the Magic Life Pills, it is their uncommon powers in promoting health, on which all their merits stand, notwithstanding this they are the original sugar coated pills The proprietor made this valuable improvement to preserve their curative virtues entire as well as to render them pleasant to the taste, yet individuals of no integrity have counterfeited other pills coated them, and though the base and silly pretension to a patent are distributing them about the country, deceiving the public by disposing of them unjustly through the already acquired reputation and popularity of the genuine *Halsey's Sugar-coated Pills* In order to get the true and original sugar coated pills, see that the engraved signature (G W Halsey) is on the label of each box, and buy only of advertised agents

LORRAINE'S PILLS.

THESE Pills are now acknowledged by thousands that use them daily, to be the only medicine that fairly takes the BANNER from all others They cause no pain or uneasiness of any kind in their operation and require neither change of diet nor care of any kind This medicine has actually done wonders It has established a reputation unrivalled, on its own merits, without being puffed up continually in the papers

The attention of the reader is respectfully called to the following highly respectable notices of this invaluable and incomparable medicine—and it will be seen its achievements are most extraordinary as daily experience speaks more and more remarkable cures, where other medicines had entirely failed of giving even relief

COUGHS, COLDS AND CONSUMPTION

A gentleman of Boston, was so much afflicted with hoarseness that he could not speak loud, took Lorraine's Pills They had an excellent effect, and rendered his voice soft clear, and distinct in one night's time

PILES! PILES!! PILES!!! The only sure remedy for the Piles is

DR LORRAINE'S PILLS

Never in one single instance has failed to cure that worst of all diseases Certificates from the most respectable people of Boston, can be seen at his office

VERY REMARKABLE CASES!

Mrs J Greenwood has been entirely cured of a very large sore on his leg, by the use of only two boxes of Lorraine's Pills

SHE WAS POINTED AT!!

She was pointed at, in Washington street Boston saying that is she! That's the lady that was so weak and sick and given over to *die!* and was *cured*, even to admiration, by Lorraine's Pills! in somuch that when she goes to church or to walk in the street she is actually pointed at,

☞ THAT'S SHE! ☜

DANCED IN FANEUIL HALL!

A lady in November 1st, commenced the use of Lorraine's Pills with all the frightful symptoms of death upon her, visible in the ghostly countenance, accompanied with Despondency Sighing Fainting Convulsions, &c, yet by the powerful virtues of only one of Lorraine's Pills daily, in the space of six weeks she acquired such a stomach such a constitution! that she Danced in the Faneuil Hall in Boston

CAN YOU EAT OYSTERS?

One doctor asks his patients can you eat oysters, &c, another can you drink milk &c Now we tell you all you'll be but one of Lorraine's Pills daily you can eat any thing and acquire a constitution, fit for all occasions and comforts and pleasures

Mrs ——, of Salem, was afflicted with a cancerous humor that settled in her breast, took Lorraine's Pills, and was entirely cured

Mrs ——, of Boston was dreadfully afflicted with sore Nipples on account of a humor of the blood, took one of Lorraine's Pills every night, with a view to cleanse her blood, which entirely cured her

Dyspepsia—Mrs Susan Bond, Pearl street N York was effectually cured of Dyspepsia by taking only one of Lorraine's Pills on going to bed for eight days

Nervous or Sick Headache—Lady Smith 189 Fulton st N Y was entirely cured of a severe nervous or sick headache, by taking three of Lorraine's Pills

Palpitation of the Heart—Miss E West, Greenwich Place, N York, was entirely cured of a violent Palpitation of the Heart, by a steady use of one of Lorraine's Pills every night for one week

Worms—Mr Loring Gray of N York, cured three of his children of Worms, by giving them one pill each for three days

N. H. DOWNS'

Vegetable Balsamic Elixir.

The great Northern Remedy for

CONSUMPTION.

Also for the cure of Colds, Coughs, Whooping Cough, Croup Bleeding of the Lungs, Bronchitis Pain in the Side, and all diseases of the Pulmonary or Breathing Organs

IT is now more than ten years since this incomparable remedy was given to the public with what success the thousands of recent invalids, with the universal encomiums of grateful people allude abundant and gratifying evidence Indeed no medicine has ever with such UNIVERSAL SUCCESS grappled with disease It is its own best commendation, and to be valued needs but to be known

Its operation upon the system is marked in peculiar from that of most similar preparations

It is EXPECTORANT, and most essentially aids in the expulsion from the stomach all traces of phlegm and phlematic humors, through the process of expectoration or spitting

It is SUDORIFIC and promotes a healthful perspiration thus expelling by the pores of the skin the poisonous fluids and impurities of the blood the retention of which in the system is a prolific source of suffering to the invalid

It is also CATHARTIC and usually corrects any costiveness attendant upon pulmonary complaints, while most similar preparations produce a contrary effect thus adding to instead of diminishing that difficulty (See statements of Mr Meader Mr Walker Mr Downs Alderman Morton and others in the sheets and pamphlets)

In conclusion, we would say, never despair — Hope on hope ever! If you still doubt of its virtues its efficacy enquire of those who have used it Enquire of the Agents who sell it They generally either from experience or observation know of its merits and when they tell you of its effect —what they have seen and what they know are entitled to your confidence

Pamphlets and sheets may be had of our agents, giving a full description of the medicine &c

Freemen of Maine.

REMEMBER that on the fourteenth day of September, A D 1846, you will be called upon to discharge a high and important trust in the use of the ballot

REMEMBER that the Union of Southern slave interest with the servile leaders of locofocoism from the Free States, has involved the country in an expensive and a disgraceful war for the extension and perpetuity of slavery

REMEMBER that this subserviency of the leaders of locofocoism to slave dictation has emboldened the slave interest to force upon the country, the issue whether the power of the general government shall be devoted to the welfare of the whole people, or yield to the fickle demands of inconsistent and poverty stricken slavery.

REMEMBER, that the Protective Tariff, which was the life of labor, particularly in New England, where labor is honorable, has been broken down, in obedience to the demands of the slaveocracy

REMEMBER, that the government excuses itself from making the needed improvements in Rivers and Harbors, because the money is required to carry on a war for the acquisition of territory by which to strengthen slavery

REMEMBER, that the government has refused to pay its debt to a portion of its own citizens, because but few among the slaveocracy were among the creditors, and because it was too busy with the war, caused by the efforts to sustain slavery

REMEMBER, that all who are in favor of the Protection of the American People by their own Government, and against surrendering American Independence, must vote with the Whigs

REMEMBER, that all who are in favor of sustaining Free Labor, and against reducing the toiling millions of the North to Southern bondage, must vote against the leaders of the loco party

REMEMBER, that all who are in favor of sustaining the just rights and interests of the Free States and against succumbing to the dictation of the slave States, must vote in accordance with his principles, and therefore against the leaders of locofocoism

REMEMBER, that all who would put a stop to the career of British Free Trade doctrines, and restore that PROTECTIVE POLICY which was designed by Patriots of the Revolution, adopted by the First Congress, and sustained by Washington, Adams, Jefferson, Madison, Monroe, Jackson, and Harrison, must appear promptly at the Polls on the fourteenth of September, and vote with the Whigs

REMEMBER, that it is important the voice of Maine should be emphatically given through the ballot box, against the gigantic iniquity of slavery and locofocoism, and that to do this, every man should not only vote himself, but make the necessary effort to get his neighbor to vote with him.

REMEMBER, that now is the time for every honest man, and lover of Freedom to show by his conduct and his vote, where he stands, and what principles he is prepared to sustain

REMEMBER, that every vote is important One vote may decide the great issue between Freedom and Slavery, now before the country

☞ John E Gould Esq, professor of Music of Boston is now on a visit to this city, the place of his birth and of his early achievements in the noble art. His many friends here cannot but be highly gratified in his progress and in the high stand he has taken in the city of his adoption We think it would be well for his pupils to give him a concert here during his stay.

BATTLE WITH THE CAMANCHE INDIANS—LATER FROM THE ARMY.

The steamship New York arrived at New Orleans on the evening of the 13th She left Brazos San Iago on the 8th McCullough's and Gillespie's Rangers were to start that day for Mier, on the scout, with orders to take that point if possible The Regiment of Mounted Rangers at Reynosa, under Hays and Woods, received orders to proceed to Linares, and Monterey, and capture those points General Taylor passed up the Rio Grande on the 5th He had forbidden the sale of spirituous liquors at Matamoras, on their entrance at the mouth of the river The health of the army was good

The Matamoras Flag of the 5th states that McCullough and Gillespie's Rangers had a fight with a company of Camanche Indians, about 600 in number In the encounter the Camanches lost 20 killed, and of the 80 Rangers who attacked them, there were but 2 killed, the latter bringing off 150 horses Several companies of the St Louis Legion, and several officers of the Army, came over in the New York

Col Twiggs is left in command of Matamoras His and May s commands are to bring up the rear of the army as it moves forward

Col Clark, of the Infantry is to be left in command at Matamoras, with two companies of artillery and one regiment of volunteers

The Mexicans were fortifying Monterey and calculated to meet the Americans with a strong force The river was rising again at Camargo Eleven steamers had passed up from Matamoras Capt Walker is dangerously ill at Matamoras

The N Orleans Picayune of the 14th brings a few additional items of intelligence

The fight with the Camanches was provoked by the depredations of the Indians, who, about 9 miles from Camargo, killed some thirty Mexicans and carried off thirteen prisoners—women and children On the night of the 28th, within three miles of Camargo, Capt Gillespie s company of volunteer cavalry was visited by another party, which carried off six of his horses The Alcalde of Guirelo was killed by the same party on the 1st instant, and the authorities of that place have called upon Gen Worth, the commander of the troops at Camargo, for protection, declaring that the Mexican Government has abandoned them since 1835, and that they have nothing now to hope for from them

A portion of McCullough s and Gillespie's companies united, started in pursuit and overhauld the "spoil encumbered savages

☞ Col Bugbee has received Godey's Lady's Book for September Its illustrations are elegant and its reading matter varied and pleasant There is a new, highly important, and very useful feature adopted in this widely spread and elegant monthly, we mean the introduction of plans and descriptions of model cottages which have become so fashionable and are so comfortable This feature will do much to improve the taste of the community for beautiful dwellings It will, too, bring into the popular field of Literature, much talent that otherwise would die unseen It will serve to draw still closer the connection between elegant taste and the mechanic arts, and introduce to a nearer acquaintance the literary deliver and the skillful mechanic It will serve to elevate labor in the public esteem We like this new feature in the work and hope it may be carried out to a large practical end

☞ The English papers are rejoicing over the success of the Free Trade policy in the United States Their accounts of the demolition of the Tariff of 1842, and the adoption of Mr Walker s scheme, are headed, in large capitals, with such phrases as, "Progress of Free Trade," "Response of the United States, "The Monopolists Floored," "Lasting Friendship between England and the United States secure," &c, &c We have it on Locofoco authority, that John Bull always pays an especial regard to his own interest, and so we must suppose something very handsome has been done for him by his Locofoco friends

The New York Evening Post, which paper we believe to be the oldest federal concern in that city, says "Poor men of the land, rejoice, the Tariff is repealed, and you will be taxed only two cents a bushel on salt It might have added "rejoice for our British Tariff will reduce your wages 25 cents a day, at least"—"Rejoice, for if the party can retain power long enough to do it, laboring men will be brought down to a level with the paupers of Europe"

A friend yesterday handed us a Passion Flower in full bloom It is really one of the most beautiful and interesting flowers we ever recollect having examined This reminds us of the increase of beautiful plants in our city and of the increased attractions of home on account of them

It afforded us much pleasure in witnessing, a few days since at the window of a Blacksmith shop a monthly rose bush in full blossom We thought it not only indicative of good taste, but of a touch of true philosophy also, that beautiful plant in a blacksmith shop It is well designed to make the labor of the shop more attractive, and the want of attraction to labor is one of the crying evil of the times

☞ We understand that an artist and a clergyman in this city, Mr Holman, is engaged in painting a large picture representing the different stages of Intemperance, and which is calculated to give interest to Temperance meetings We have not seen the picture but understand, from those who have seen it that it possesses great merit as a vivid off-hand production, and that it will produce quite an effect when it comes to be publicly exhibited

☞ On referring to our advertising columns it will be seen that R H Eddy continues his establishment at 22 State street Boston, for imparting all necessary information to people interested in Patents and for furnishing them with every desirable document to enable them to secure a Patent on any invention or discovery.—Mr Eddy is thoroughly qualified in his department of business.

☞ Those of our friends about visiting Boston, we doubt not will do well while there to call upon Geo W Warren & Co at 162 Washington street and examine their excellent stock of Dry Goods, for a description of which see their advertisement in our columns We have heard of many being uncommonly satisfied with their treatment at this establishment

Disgressing Catastrophe! Vessel run over by the Hibernia and six men drowned!

The Steamship Hibernia arrived at Halifax about noon on Tuesday, after a rather tedious passage from Boston We are indebted to the Merchant's Exchange for a copy of the Halifax Post, containing the following

Extract of the Steamship Hibernia's Log, from Boston to Halifax

"Aug 16th—At 3, P M, left Boston Harbor, it was then clear, at 4, P M., thick fog, at 8, P M thick fog, ran foul of the Sch Main, 53 tons burthen, of Cohasset, stopped the engine, lowered down a boat and succeeded in saving five of the crew, the remaining six perished The names of those perished are, Joshua Litchfield, master, Mr Litchfield and son, Martin Wheelwright, H Richardson, boy, and E Lincoln, boy

Captain Walker is lying dangerously ill at Matamoras Sickness among the volunteers is increasing

In a conversation which our informant had with Col Twiggs, he (the colonel) remarked that the last shot in the Mexican war had been fired Thus is more evidence, indirect it is true, that a peace has already been conquered

The schooner Delaware, loaded with coal for the navy, on the 6th inst, parted both chains and went ashore on Fare Island—vessel and cargo a total loss

The brig Orleans of and bound to this port, struck on a bar going out, with a pilot on board, unshipped her rudder, and went ashore on the North breakers She had on board sixty volunteers, all of whom were saved, the vessel went to pieces the next night

On the 30th ult, at Burrita, a member of Capt McIntosh's company of Louisiana volunteers, named Wm Overton, stabbed another of the company named King, who died immediately Overton made his escape —N O Delta

☞ A Congress of Temperance Societies was held in the Capitol of Sweden, June 15th, where one hundred and thirty-two national and foreign associations were represented The King, who is President of the Stockholm Society, with the Queen, was present Dr Baird and Dr Brunemade, from America were also present The meeting, which was one of much interest, promises to give a new impulse to the cause in the North of Europe

☞ The American Review, a Whig Journal of Politics, Literature, Art and Science, for August, has been upon our table for several days It contains articles of thrilling interest and of sober importance, which we heartily wish could be read and inwardly digested by the great mass of the people of our country—The Review occupies a high place in the literature of our land and we wish its influence and its profits were equal to its merits It may be found at the Bookstores

☞ Public services for the ordination of Mr S L Caldwell, are expected to take place at the First Baptist Church on Harlow Street, on Thursday evening of this week, commencing at 7 o clock

Sermon, by Rev Dr Sears, of Newton, Massachusetts

☞ We are requested to call the attention of the young men on our river, lumbermen, river drivers, and boatman, to the advertisement of Lieut Stevens, for Engineer Soldiers, which may be found in our columns He will be at the Bangor House to day and to-morrow for the purpose of making enlistments

☞ James Brown has been sentenced to ten years confinement in the Ohio Penitentiary for robbing the mail And Brusman, late Post Master at Little York, Ohio, has received the same sentence for opening a letter and stealing one dollar from it

☞ The success of James K Polk and his Southern Slaveocracy in breaking down all Protection to Northern Interests—in reducing the FREE MEN of the North to a level with the SLAVES of the SOUTH, has made radical locofocoism more bold than usual

☞ We are indebted to Jerome & Co s Express by Mr Cutting, to the officers of the Steamer Governor and to Col Maxwell conductor on the Eastern Railroad, for Boston, Salem, Newburyport and Portland papers received yesterday in advance of the mail

☞ We rejoice that Gen Taylor, while operating against the Mexicans, has also declared war against King Alcohol, and all his agents and worshippers in Matamoras His proclamation has made sad confusion among the rowdies in that place, and carried death and destruction to the grog shops

Seven new Missionaries we learn have sailed from Boston for India the past week, under the direction of the Presbyterian Foreign Missionary Society, after appropriate services, and instructions from the Hon Walter Lowrie, Secretary of the Board

☞ Mr Hubbell, the agent for the sale of the splendid engraving 'The Last Supper will remain at the Penobscot Exchange for a few days longer and those who wish to secure copies of the work, should improve the time

☞ Graham s Magazine for September, has been received at Col Bugbee s periodical depot It contains several illustrations and the reading matter is unusually attractive and from the most popular writers of the day

A letter from Fort Washita, July 26th, says 30 persons left Fort Smith three weeks previous for California, and a report come in from the prairies that they had all been murdered by the Camanche Indians

☞ There is one luxury which those of us who live on the outside row of the city, have, which is entirely unknown to those in the centre—that is, a nightly serenade of cow bells

☞ Upwards of seventy men, of the California regiment, have deserted; sick of a bad bargain.

☞ The corn crop in North Carolina promises to be the largest ever known

A violent war is raging in South Carolina between the friends of Mr Calhoun on the one hand and of Mr Pickens, the man "born insensible to fear," on the other. Mr P will certainly go to the wall, and we suppose he is not altogether unaware of his impending fate, since it is understood that he is now extremely anxious to obtain the Mission to England, which some eighteen months ago he refused to accept.—Richmond Whig.

No one, says Jerome, loves to tell a tale of scandal except to him that loves to hear it, learn then, to check and rebuke the detracting tongue, by showing that you do not listen to it with pleasure.

Notes of an Observer.

Concluded

The next morning about 10 o clock I found myself again on board of the boat and passing down by Cape Rosier into Eggemoggin Reach that divides Brooksville and Sedgwick from Deer Island The scenery is diversified by abrupt rocky points and green fields, granite ledges and minnie bays That of Buck's harbor on the Brooksville side is extremely pretty We passed the volcanic hill on little Deer Island whose bold top was conspicuous for its peculiar and appearance The rock bound coast does not give a favorable impression of the agricultural capabilities of that region The boat discharged her passengers at Deer Island, and in a trice was off for Sedwick opposite whose village we arrived in a short time We remained at such a distance I did not get a full view of it, but judging from a neatly proportioned church, standing on an eminence I took it for granted that the village and its people are all pleasant and agreeable After running down the beach some miles we rounded Naskeag point and come out into Bluehill Bay Here we passed a brig at anchor with *Bluehill* on her stern How odd! "Launched at Kathadin the ship &c '—"By the Steamer Thundergate from Mount Lebernon &c'—our course was now Northerly some 10 or 12 miles towards the mountain, I left the boat and have been exploring the region round about ever since

The village is beautifully situated at the head of the bay rising from the water towards the mountain

The neat churches and Academy—the dwelling houses are in good repair, and well painted and indicate a people in thriving circumstances The beautiful elms and other ornamental trees, and the flowers and shrubery in the yards give it an air of coolness and quiet so desirable at this season, while the stores, and shops, and vessels at the wharf, that business has its votaries here too The scenery, though not so extensive as more varied, and to me more pleasant than at Castine But the climate here is delightful The place is enough inland to take from the sea breeze the sharp chilling edge that is often so disagreeable at Castine, and still it retains all its purity and bracing effect.

My first expedition was to the mountain It is cultivated nearly to its summit, and its very pinnacle was occupied by a flock of sheep It is nearly a thousand feet high from the water—From its top the landscape is limited only by the capacity of the eye Fields and villages are scattered among the forests—mountains, lakes rivers, bays, Islands and the ocean are spread out to the beholder, a varied scene well repaying the slight fatigue of clumbering the steep ascent

I have several times too visited the mineral spring which is strongly of the chalybeate character My attention was drawn to it by a report of Dr Jackson that I found on the table of the public house He says of it, 'It is surprising to see the enormous quantity of iron deposited by the spring Where it flows out into the meadow a deep and thick bed of beautiful brown carbonate of iron is deposited, * * * *

"In the course of time this spring will become a place of resort for invalids, and people of leisure, and there is no doubt that its use, combined with an occasional excursion to that mountain, would prove a sovereign remedy for dispeptic complaints, and many other disorders common to sedentary people' * * * * "The moment such arrangements are made the tide of travel will naturally carry many persons to Bluehill springs, and the place being one of the most picturesque districts on the coast would soon become celebrated as a place of resort'—Now, here is a prescription for you by the great State Doctor, and good for out of the State Treasury' Here you can be cured without money and without price Come then, all ye who are sick in body or in mind and freely drink in the remedy prepared by nature's own patent, for the State Doctor assures you that there will be no mistake in the cure

The matter of fact people here have not made the tasteful arrangements proposed by the doctor, so the tide of travel has not yet set so strong this way as the doctor s recommendation would imply On enquiring I found that very many had been benefited by the use of its waters

As the fog is rolling from the mountain and the sunshine begins to gleam over the green foliage, I must defer to another rainy day if there should be one during my stay on account of my *deer hunt*, and my pigeon and partridge shooting—of my trout fishing in several capital ponds in one of which I missed the taking of a much larger trout than our friend K boasted of—of my blueberry excursion to the Island, and of several sails in the harbor, either of which would be greatly edifying in a rainy day, but which will be lost to the community, if the contingency should not happen

Yours truly

JAS LATHBOLT

A Promising Graduate.

We understand that the graduating class of Yale includes among its number one of those remarkable instances of perseverance under great discouragements, which are now and then met with at every College, though very rarely attended by circumstances of such striking interest as the present The individual referred to entered College three years ago, and is said to have made his way here from a distance of above one hundred miles on foot, and to have entered on his collegiate course with the sum of just three dollars on hand' He has, by his unaided efforts, sustained himself to the end of that course, and now comes off with distinguished honor

But what is extraordinary in his case is, that he has also found time (while many of his more favored comrades have been wasting their precious hours in city amusements and collegeinanities) for cultivating his favorite branch of Electricity and pushing his mathematical studies beyond the limits of the prescribed college course As evidence of this promise in severe science it may be stated that an elaborate paper *on the law of electrical conduction in metals* was published by him in the March number of Dr Silliman's Journal of Science, which for experimental, mathematical and logical merit, is surpassed by nothing in that department of science which has ever appeared in that work, and which has already elicited from Sir Michael Faraday, the prince of philosophers in Electricity, a compliment of which either of our eminent countrymen, Prof. Morse or Dr Henry, might well be proud

Would it not be a good theme for a Commencement exercise, to inquire why it is so, that the needy, *self supported* student, so often carries off the prize of high success, while the lad carefully nurtured at a primary school, and followed through the College course by an affluence of means, wholly fails in the race, or at most, attains a feeble mediocrity?—N H Palladium

Jack Ashore Drilling as Infantry.

At the time that an attack upon Point Isabel was apprehended, and the brave sailors of the fleet were transferred to the shore to aid in the defence of the Point, the officers were a little non plussed in drilling them in "land tactics." The word of command so given by the infantry officer was all "hand over fist' to the sailors They could get along with the "manual well enough,' but when it came to the "movements" they were thrown completely on their beam ends, and Lieutenant R, of the Navy, was compelled to aid his friend of the land service

The officer when desirous of forming the company into line in the direction in which they were marching, cried "Company into line!" but the tars only hitched up their trowsers, and marched on til Lieut. R called out "Line of battle ships abreast on the starboard beam!' when the movement was accurately and expeditiously executed He then wished to employ the men as skirmishers and "charge," and ordered, "Line of battle ships bear down on the enemy!' and off they rushed like a whirlwind, with a loud huzza, sticking their bayonets into every clump of bushes, or slashing with their sabres, every prickly pear within their reach

Major——of the infantry who was superintending the drill, ordered, "Rally on the reserve' but on rolled the sailors like the waves of the ocean with redoubled energy, till their own officer, who had he order explained to him, cried out—"Line of battle ships, ready about!" The old boatswain who acted as sergeant, replied instantly—"Aye, aye, sir—all ready!" "Bout ship and away she goes, all sail set," bawled the lieutenant. Every man wheeled on his own axis, and steering for his former position, came in with a perfect rush, all right and tight.

"Danced in Faneuil Hall."

A lady was found in Faneuil Hall,
A hopping and jumping and dancing,
She had taken a dose of 'Lorraines' pills,'
And she could'nt help kicking and prancing

Upon what occasion this dancing was done,
Or who upon earth played the Fiddle,
I cannot tell certain, but venture to guess
That it must have been Jeremy Diddle

Oh! Fanny Essler! oh, ho! Fanny Essler,
We have oft seen your name in great bills,
But we could not divine, how you could dance so fine,
Till we heard of these 'magical pills'

Oh, Jeremy Diddle put up that old Fiddle,
Let crimson suffuse your old face,
If the lady must dance and caper and prance,
Let her find a more suitable place

Now, Dr Lorraine, let me not ask in vain,
Make no more of these wonderful pills,
Lest the good people all both the great and the small
Should all be found dancing in Faneuil Hall

And ye 'drop and pill' venders, wherever ye are,
Pray treat us no longer like mules,
Or at least for your own sakes, pray cease to proclaim,
That you think the whole nation are fools
That is all

To the Hon, FREDERICK H ALLEN, Judge of the District Court for the Eastern District, County of Penobscot and State of Maine next to be holden at Bangor, on the 4th Tuesday of May A D 1846

RESPECTFULLY shows JOHN PETERS of Brooklyn, in the County of Kings and State of New York, that on the 8th day of April, in the year of our Lord eighteen hundred and forty four as a Surrogate's Court held in the city of Brooklyn in said county of Kings, before Alden Spooner, Esq Surrogate for said county of Kings, the last will and testament of John Peters, lately of Kings county, deceased, was duly proved and recorded and the execution thereof granted unto John Peters son of said testator, executor in said will named as appears of record in the office of the Surrogate of said county of Kings, and that a certified copy of the approval of record of said will and testament of the petitioner has been submitted for examination to the Judge of Probate for said county of Penobscot, and was by him on the last Tuesday of June A D 1846, at a Probate Court held in Bangor in said county of Penobscot, allowed and ordered to be published and transcribed on the records in the Registry of Probate for said county of Penobscot—that said Peters at the time of his decease resided out of this State, and that he died seized in fee simple of certain real estate situated in Orono in the county of Penobscot, and described as follows viz—One undivided quarter part of saw mill numbered four and five on Babcock Dam, so called Orono, situated at the South East corner of Marsh Point, so called, with the privileges and appurtenances belonging to said mills on said dam, accessed by said Peters by deeds from one Ray and Nathaniel Treat and others, recorded in the Penobscot Registry, excepting the right which millers have to a log sluice through said dam, and the right to continue the same All of it is necessary for the payment of the just debts and legacies of the said John Peters, and incidental expenses of sale and charges of administration that the said real estate should be sold, and that the interest of all persons concerned will be best promoted by a private sale of the same And your petitioner considers a more advantageous offer has been made by Waldo T and Hayward Pierce of this place, Merchants and that the interest of all persons concerned will be best promoted by an immediate acceptance of said offer Wherefore your petitioner prays your Honor to grant him a license to authorize him to sell and convey all the right title and interest in said real estate which belonged to said testator, (subject to the claim of Dower therein) to said Pierces, at the price affixed by them on such terms as your Honor may see fit at private sale, upon legal notice and upon compliance with the requisites of law as to giving bond and taking oath on the part of your petitioner

Pearl Street House,

88 PEARL-STREET, NEW YORK.

THIS spacious Establishment erected for the especial accommodation of MERCHANTS, in the very centre of the most populous business district of the city, has passed into the hands of the undersigned who have been engaged during the last two months in making such additions and improvements as the former condition of the House seemed to demand To those who have hitherto extended their patronage to the Hotel, it must be obvious that, in some particulars, the management was susceptible of improvement, and without entering into details they will simply state that where such was necessary, neither expense nor labor has been spared

The Dinner hour has been changed from 2 to 1 o'clock—a Dinner is also served at 5 o'clock, in the Ladies Ordinary

With the most careful attention to the comfort of visitors in every department of the house, the Proprietors hope to receive and respectfully solicit a liberal support

CONSUMPTION CURED!

BUCHAN'S HUNGARIAN BALSAM OF LIFE.

THE

GREAT ENGLISH REMEDY

For Colds, Coughs, Asthma, and other Diseases of the CHEST and LUNGS.

BUCHAN'S HUNGARIAN BALSAM the Great English Remedy for Pectoral and Pulmonary Diseases, still stands unrivalled and unequalled as the most diligent, agreeable, and effectual curative of these formidable complaints, now known to the civilized world

Three years of trial in the United States during which time it has been distributed from Maine to Florida, has only served to establish its pre-eminent merit in all parts of the country, as the great

ONLY RELIABLE REMEDY

in the worst cases of Pulmonary disease and the most inveterate cases of all the slight forms of colds, coughs and inflammation that can possibly be used

SPITTING OF BLOOD The alarming symptoms of approaching Consumption is speedily checked and prevented by the use of Buchan's Hungarian Balsam which healthfully affected membranes relieves the congested tubercles, and restores those vital organs, the lungs to a sound and healthy condition

REMEMBER THIS Spitting of Blood always arises from a tendency to Tuberculous disease and if not checked, at the outset, will sooner or later determine in death A person who raises blood once, will raise blood again, unless a proper curative is immediately employed

PAIN IN THE SIDE This distressing symptom of Consumption arises from inflammation of the Lungs or the membrane called the Pleura, or from Bronchial affection of the air passages In either case it is a very dangerous indicator of disease It prevents full and free breathing and wears away the natural strength of the system The cause of this symptom should be removed at once and nothing can possibly effect an object so speedily and happy as the Great English Remedy, discovered by Dr Buchan, which is entirely vegetable in its ingredients, and perfectly harmless in all stages of life

LIVER COMPLAINT In cases of Consumption the Liver is always more or less affected and also the Spleen Pleura, and small intestines On dissecting Consumptive patients, Tubercles are often found in all these organs particularly upon the Liver, which also becomes fatty, only as we feel The effect of the Hungarian Balsam in diseases of the Liver, especially if at the commencement or before decay, is truly wonderful *Sample instance of the Liver, scattered by Consumption is speedily cured by the use*

HIVER COUGH The harsh dry, hacking winter cough which *affects old people*, and frequently leaves a low state of health is happily affected by the *Hungarian Balsam*

It warms, moistens, and stimulates the whole breathing apparatus, removes all morbid mucus, and other foul impurities, purifies and animates the blood, improves the secretive power of the Liver, Spleen, and other large glands, and the digestive organs, and imparts new life to the weak and emaciated system

BRONCHITIS Bronchitis, Difficulty of Breathing Harsh Cough, scanty expectoration, with all other symptoms enfeebled by this disease will be found healing from the throat to the lungs, are directly and specifically cured by the use of the admirable remedy invented by *Dr Buchan*.

This is a very painful wearing and injurious complaint, and always has a powerful tendency to enflame and soften the Lungs, and thereby to produce the worst form of Pulmonary disease Be warned in time be ill cted and employ this invaluable remedy

TUBERCLES ON THE LUNGS The Hungarian Balsam is the only popular remedy which has any power to dissolve, remove and cure Tubercles on the Lungs Incredible as this is generally esteemed, we have the most abundant and conclusive evidence to sustain the assertion that such is its direct and immediate effect in all cases where there is no mortal organic defect In fact, so confident is the American Agent of its power to cure the worst form of this disease that he prefers (as he has frequently stated), that it should be used by invalids who have been *PRONOUNCED INCURABLE* by the most eminent physicians, rather than by persons affected with some slighter form of disease—in order that its triumphs might be more apparent He boldly declares that it will cure Tuberculous disease and confidently solicits a trial in the *worst of cases*

EXPECTORATION Free Expectoration is the most important object to be attained in all attempts to cure diseases of the Chest and Lungs The Cough, which is so distressing, is simply the result of a desire to expectorate, and as long as foul matter exists in the air passages it will continue to irritate the membrane and produce a cough Coughing is an attempt to throw off this matter and expectoration gives great relief and ability to expectorate is the latter stages of Consumption is the cause of death

The Hungarian Balsam is a *great Expectorant*—It dissolves the morbid and diseased matter in the air passage, changing it from a tough gluttinous substance, to a thin colorless fluid, and throws it off with the greatest possible ease and comfort to the patient There is no better medicine in the world if its virtues are duly understood

SPASMODIC ASTHMA Simple or Spasmodic Asthma has no better remedy than the Hungarian Balsam This purifies and destructive affection which resists almost every thing else gives to the all powerful influence of this great remedy, as readily as any other form of pectoral disease

CONSUMPTION Consumption has been graphically described as *Shylock's flesh*

The Hungarian Balsam by its cleansing, warming softening and annealing power, produces not shrinking but *expansion*

Before its delightful influence all chill fever night sweats costiveness, blotches of the skin not flushed skin unceasing strength emaciation and decline—decapper, like the foul forebodings of night before the glorious morning sun This is no delusion, but demonstrable fact, sustained by incontestible proof from all parts of the country

BE WISE TO DAY Delay in any case of Consumptive tendency, is emphatically Death under all ordinary treatment The Hungarian Balsam is a great ANTIDOTE, as well as CURATIVE If you have any symptoms above described, be advised in time

Sold in large bottles at only one dollar per bottle By Special Appointment—David F Bradlee Boston Mass Sole Agent for the United States and British American Provinces

J S HOUGHTON 130 Washington street Boston, General Agent for the New England States

Highly Important to all Invalids & friends of Invalids.

THE AFFLICTED IN DANGER! SALUTARY CAUTION,

READ! READ!!

THE well established and well-earned reputation of WRIGHT'S INDIAN VEGETABLE PILLS, as a Sovereign antidote, and cure in cases of Fevers, Head Aches, Indigestion, Dyspepsia, Dysentery, Colics, Female Complaints &c &c has excited the cupidity and envy of the proprietors of other medicines and since their admirable qualities cannot be impugned, has or have led them to the astonishing efforts of men who seek to pass off other medicines by the reputation of Wright's Indian Vegetable Pills

Beware of all attempts to palm off any (so called) specifics by means of specious sounding and deceptive titles SUGAR COATED PILLS' may be pleasant to the palate but all required something more than a mere elegant exterior to combat with disease We shall not attempt to analyze the composition of this sugar Coated or pretended improved Indian Vegetable Pills, but will say for it's own into the market and advertised extensively in the country papers—we have no desire to do so—it is unnecessary It is however, our duty to assure the public emphatically, that they are an imposition on WRIGHT'S Indian Vegetable Pills, and that any person basses them under this supposition is wilfully deceived This caution is positively necessary since the last (nearly) the qualities set forth the efficacy of the Pills &c are all those which formed the distinctive and original characteristics of the genuine medicine

Remember buy none but "WRIGHT'S Indian Vegetable Pills" which are protected by a patent These have attained an almost incredible sale and circulation, owing solely to their own intrinsic merits The public will ever be on their guard against any attempt to foist the Counterfeit from the brow of the inventor of which some have been placed by grateful individuals to whom it's the great source of the enjoyment of the blessings of health to his happy and benevolent agency

Wright's Indian Vegetable Pills

have performed wonders when used in cases of Intermittent, Remittent Nervous Inflammatory and Putrid Fevers, Measles, Small Pox and Erysipelas Inflammations of the Bowels, Throat, stomach, lungs liver intestines Bilious and Liver Complaints, pain in the stomach, back and side Consumption, Inflammation of the heart, ulcers and sores of every description of the skin, scrofulous, scurvy and syphilitic cancer, scrofulous Complaints, loss of appetite, sick headache, rheumatism both acute and chronic spitting of blood, deranged digestion and colics syncope apoplexy and paralysis dyspepsia hypochondriasis epilepsy, hooping cough Palpitation of the heart, ulcers and sores of every description, hysterics, weak nerves and low spirits suppression and other delicate Female Complaints

Neither medicines ever discovered has grappled these horrid forms of disease with such general success They relieve them powerfully THE EMPLOYMENT OF NATURAL MEANS TO COUNTERACT THE EVILS OF NATURE The bowels of the earth have not been ransacked for poisonous mineral to infect the system with the presence of eradicating disease The Pills and Ointment are purely vegetable and the only medicines attacking the various forms of disease in this manner, by the most extraordinary and wonderful operation, is by the means provided by the author of suffering In the Liver, the Kidneys and the Bowels (hence Wright's Indian Vegetable Pills, take upon the curative measures necessary to purify, and bulsamic Diuretic Expectorant and Purgative

The ORIGIN of this invaluable medicine entitles it to unlimited confidence and respect The nearer we approach to nature in our researches after truth both in science and art the more complete will be our success in both, and what the uniform physical condition of the Indian Tribes of this continent whether exposed to the frosts and storms of the North, or to the rain heat and pestilential miasma of Southern climate. Houseless unprotected exposed to every atmospheric change every extreme of the seasons dwelling at times in morasses and by the margins of unhealthy pools and swamps—they yet enjoy an almost total immunity from disease, while the white man who enjoys all the comforts of civilization with its attendant arts is as much inferior to the savage in physical vigor, as he is superior to him in intellectual acquisitions—How does this happen? Simply because herein of the light of science, he relies upon that divine instinct which impels him to select from the produce of the field and forest those remedies which Nature and Nature's God has bounteously provided for the solace of suffering and the mitigation and cure of disease—sowing them broadcast on every hill and valley Let those who impiously arraign the good justice of Divine Providence and point with asperity to the multitude of invalids who lie groaning upon beds of sickness, turn from the false lights of man and study the secrets of nature and they will adore that mercy which has so bountifully provided a cure for every wound—*a remedy for all who seek one*

Disease rarely assumes one form from another, even in any one case—hence the absurdity of attacking it by an uncompounded medicine But Wright's Indian Vegetable Pills can be a remedy for every form of disease attacks successfully any combination of malady Thus no one of these pills thrown, fully cleansing in the manner and operation They cannot fail of affording relief if taken according to the strong accompanying them They may be freely resorted to in the most desperate cases of the most desperate disorders for they have effected remarkable and marvellous cures They are applicable to a wide range of diseases and to persons not confined to any particular age or condition or sex They are now triumphantly at the hand of the reach of evil and the only danger that exists is on the part of the public lest they should suffer from imitations spurious Pills, palmed off by the help of Pills similar to all of the genuine Pills There are two more caution the public against purchasing any Pills

GENUINE

"WRIGHT'S INDIAN VEGETABLE PILLS."

The Pills as we before remarked operate by purgation—by thoroughly cleansing the entire system from all impurities, and making the invalid, in the homely but expressive phrase "a new man" whether the disease is INCIPIENT CONSUMPTION which insidiously attacks the Lungs, producing that dry, hacking cough so painful to the friendly ear, or Cutaneous, showing itself upon the skin in eruptions or blotches, whether the Kidneys or the Bowels be affected—*Wright's Indian Vegetable Pills* are equally efficacious in warding off danger Their expectorant cathartic, sudorific and diuretic qualities enable them to take hold of each form of disease

The *perfect safety* of the medicine is another all important quality and one which has contributed more than any thing else to its extension and popularity

In reward this medicine commends itself strongly to the patronage of the public and its use bids fair to become, before long, ALMOST UNIVERSAL
